THE OWL WHO WANTED TO BECOME A LARK

The book tells a story about two birds and their habits of sleeping late and waking up early. Each of them has their own lifestyle. But what is going to happen if one day owls start hunting in the morning, and larks begin to sing at night?

How shall they reach understanding? And will two different lifestyles become a threat to friendship? The book demonstrates that we are all different but equally beautiful at the same time. A "lark" is no better than an "owl" and vice versa. This is only a physiological difference.

Halyna Vdovychenko is a Ukrainian writer and journalist. She is the author of 19 books, a finalist and recipient of the most authoritative national awards. Her book *The Owl Who Wanted to Become a Lark* became "The Best Picture Book" of 2018 according to the "BARABOOKA" children's literature rating.

YUNA AND THE WAR

However, on a broader scale, it serves as a catalyst for introspection to contemplate the profound importance of one's homeland. Not long ago, Yuna and Roma joyfully planned their future together as they strolled through Donetsk, but their world has been turned upside down by missile attacks, artillery fire, and constant explosions, forcing them to pack their bags and flee. SEVEN NIGHTS BEFORE CHRISTMAS

Zlata has sworn to come to Yan, her missing husband's twin brother, seven years in a row on Christmas Eve and stay with him in his mountain castle until the morning. Yan is a brilliant organist, but his music is evil. When he plays, stones fall from church towers, walls crack and lightning strikes the towers. This music is the scream of Adam, the exile from Paradise. The events take place in an imaginary time culturally close to the first half of the twentieth century. This is a fascinating story for teenagers and adults.
